In today's technology focused world, print isn't dead at all – and there's never been a better time to get your hands on a print version of something you want to learn. It's the best way to fit dozens of hours of digital learning into a single physical book. We've made sure that prints in our Photoshop & Lightroom monthly print course packs have the same quality content as the print courses themselves. We've spent considerable time ensuring that it's possible to perform the learnings in a print book that can't be done through a screen. A quick look below will show you the covers of all of our monthly print packs. Think of each as a mini-course, complete with a printed list of key facts, a printable cheat sheet, user support (answers on the back!), and more. Every course pack also comes with a printable learning roadmap which shows exactly where you're going to land when you finish. Plus, we've put everything you learn about Photoshop into a physical Lightroom product. So, you can use the latest version of Lightroom, and your print copy will be just as up to date. And with a print version of every print course pack, all the tools you need are now sitting in your hands. There are a few reasons you should print a learning product, rather than just nabbing the PDF: It's where the real focus of the course is. If you just read it over your laptop, you can spend hours staring at one screen. We know from experience that the print features can be confusing. So, we've made sure the print version of the course has everything the PDF does. And the print book included in every monthly pack is always matched with the PDF as closely as possible.
